INTRODUCTION
AND
GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern City Directories (publishers of the Asheville City Directory since 1899), present to subscribers and the general public, this, the 1958 edition of the Asheville City Directory, which also includes Beverly Hills, Biltmore Forest (N. C.), Broadview Park, East Biltmore, Gentry Park, Lakeview Terrace, Linwood Park, Martel Mill Village, Morningside, Oakley, Oaklyn Park, Sayles Village, South Biltmore and Woodfin (N. C.).

Confidence in the growth of Asheville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Asheville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Asheville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a great commercial and industrial center like Asheville, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Asheville, Beverly Hills, Biltmore Forest (N. C.), Broadview Park, East Biltmore, Gentry Park, Lakeview Terrace, Linwood Park, Martel Mill Village, Morningside, Oakley, Oaklyn Park, Sayles Village, South Biltmore and Woodfin (N. C.), and the name, official personnel, nature and address of each firm and corporation in the community

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of the Directory are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

Community Publicity

The Directory reflects the achievements and ambition of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a resort, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Asheville and vicinity.

The Asheville Directory Library

Through the courtesy of the publishers of the Asheville City Directory, a Directory Library is maintained in the offices of the Asheville Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Population

Asheville is the county seat of Buncombe County, and one of the principal resort centers of the eastern U. S. The city has a population of 53,000 according to the report of the U. S. Census of 1950, with a metropolitan area population of 124,403.

History

Asheville was founded in 1797 by John Burton, and was known for about three years of its early history as Morristown. The name was later changed to Asheville, in honor of Samuel and John Ashe, noted men of that period.

The city has long been a resort center, the first resort hotel having been constructed near the Sulphur Springs in the western part of the city, west of the French Broad River. Later the tourist traffic increased and other resort hotels were built including the old Battery Park Hotel on the site now occupied by the modern structure. Other hotels have been constructed with the growth of tourist trade, through expansion of transportation facilities, including railways and highways into the highlands. Industry and agriculture also have developed in the mountain section, to the point that Asheville has become a marketing and shopping center for 20 counties of western North Carolina.

Government

Buncombe County is governed by a board of three commissioners. Asheville has the council-manager form of government, which includes a mayor and six other councilmen and a city manager. The two governmental bodies are housed in the handsome City and County buildings which flank the central city plaza. The city has one of the lowest fire records of any city of its size in the country, due to an efficient fire department, and the police department has become highly effective with the aid of radio, cooperation with state and county law-enforcement officers and by means of the police cruiser system. Two police radio stations are located here, one atop the Buncombe County Building and the other, a State police radio station, on the Black Mountain highway.

Tourist Attractions

Scenic and other attractions of Asheville and western North Carolina are always of paramount interest to visitors. The historic Dogwood Trail, a scenic city tour, is open year round to the public. The famous Biltmore House and Gardens, located in the midst of the 15,000-acre Biltmore Estate in Asheville, have been open to the public view since 1930. The noted mansion, adjudged one of the finest private homes in the world, was constructed nearly half a century ago by the late George W. Vanderbilt. The House, built after the architectural pattern of the French chateaux, contains a vast collection of objects of artistic and historic value, gathered at great cost by Mr. Vanderbilt in all parts of the world. Notable among the priceless treasures on display are the chessmen of Napoleon, the ceremonial robes of Cardinal Richelieu, ancient tapestries which graced the tent of Francis I at the Field of the Cloth of Gold, and a myriad of other rare and precious objects.

Surrounding the House, the vast expanse of gardens and landscaped park presents a great mast of flowers and superbly designed vistas to the beholder throughout the spring, summer and autumn seasons.

Home of Thomas Wolfe, author of LOOK HOMEWARD ANGEL, in Asheville, North Carolina

In Riverside Cemetery are located the tombs of the famous writer, O. Henry and Zebulon Vance, Civil War Governor of North Carolina, and the now famous marker erected to the memory of 18 German sailors by members of the Kiffin Rockwell Post of the American Legion. This is the only monument ever erected by American Soldiers to the memory of their foreign foes.

Also in Asheville, in the city of his birth, is the tomb of the late Thomas Wolfe, internationally-known author of "Look Homeward, Angel," "Of Time and the River," "The Web and the Rock," and "You Can't Go Home Again." He spent most of his childhood at his mother's boarding house, the "Old Kentucky Home," at 48 Spruce St. This house is known to millions of American readers as "Dixieland," the boarding house operated by Eliza Gant in Wolfe's first novel, "Look Homeward, Angel." It has been purchased and restored by the Thomas Wolfe Memorial Association and is open to the public. It contains the furnishings of the days when the author resided there.

Richmond Hill, home of the late Richmond Pearson (minister to Persia and Greece), is open to the public. It is filled with rare treasures collected from all over the world.

The famous Craggy Rhododendron Gardens, located on the crest of the Great Craggy Mountains near Asheville, are one of the noted scenic attractions of the region near the city. The gardens, which present the massed bloom of millions of purple rhododendron shrubs in June, are reached by means of a link of the famous Blue Ridge Parkway, and are the objective for many visitors in Asheville during the bloom of the flowers, which is generally around the middle of June, depending on the season.

In the surrounding highland region, the beauty of the Sapphire Country, Chimney Rock and Lake Lure, the Blowing Rock, Little Switzerland, Linville and Grandfather Mountain sections, the Tryon resort region, and the sections near Hendersonville, Waynesville, Brevard, Highlands and Whiteside Mountain are of interest to visitors.

Mount Mitchell, highest mountain in eastern America (altitude 6,684 feet), and Mount Pisgah (5,749 feet) in the Pisgah National Forest, may be climbed by the motorist.

The Great Smoky Mountains National Park

Asheville is the eastern gateway city to the Great Smoky Mountains National Park, one of the nation's most popular playgrounds. This great scenic region with its majestic peaks and deep valleys, its vast expanse of virgin forests, its clear trout streams and tumbling waterfalls, is a center of interest for visitors. 2,855,819 visitors entered this park in 1956. Excellent highways connect Asheville with the Great Smokies, and on the eastern approach to the park is located the 57,000-acre reservation of the Eastern Band of Cherokee Indians. Here live 4,000 Indians, occupying their ancient hunting grounds and pursuing their ancient crafts and customs under supervision of the Government.

The Blue Ridge Parkway

Through western North Carolina the "Blue Ridge Parkway" is nearing completion, connecting the Shenandoah National Park in Virginia with the Great Smoky Mountains National Park in North Carolina and Tennessee. This great touring route, when completed along the summits of highest of the Appalachian peaks, will be the most scenic motor-way in America, covering a distance of approximately 500 miles, with an average elevation of 3,000 feet above sea level. 4,499,215 persons traveled the parkway during 1955.

Sports

Asheville and western North Carolina comprise a region which is a paradise for outdoorsmen. In Asheville, four golf courses, adjudged among the finest in the South, offer bent grass greens and fairways to the golfer. These are the courses of the Country Club of Asheville, Inc., the Biltmore Forest Country Club, the Beaver Lake Golf Club, and the Municipal Golf Links. Over a score of excellent courses are to be found in the resort centers of the highlands.

Tennis courts, swimming pools and other recreational facilities are provided in Asheville. The City Recreation Park, with its skating rink, and its amusement devices, is a center of attraction during the summer months.

Golf course in Asheville, North Carolina

More than 70 artificial lakes, located in all parts of the "Land of the Sky," provide opportunities for boating, sailing and fishing. Through the mountains many hundreds of miles of trails are open to the hiker and horsemen. Streams of the region are well stocked in most cases with brook and rainbow trout, and the five game preserves in the western North Carolina region provide good hunting for deer in the surrounding terrain during the open hunting seasons. Bear, Russian wild boar, grouse, rabbits and other small game also are plentiful in most of the mountain regions, and during the open season, nimrods from practically every state in the Union come to this section. For many years, deer, bear and boar hunts have been held in the Pisgah and Nantahala National Game Preserves.

Horseback-riding along the many enticing mountain trails is one of the favorite recreations among visitors. Horse shows at Asheville, Bent Creek Ranch, Tryon, Blowing Rock, Hendersonville and Linville each year are events of great interest to followers of equestrian activities.

In the mountain region near Asheville are located nearly 50 camps for boys and girls, which operate during the summer months and provide excellent summer recreational programs for thousands of boys and girls of school age.

In Western North Carolina also are located the great religious assemblies, sites for summer recreation and conferences for the members of a number of denominations. These include the Baptist assembly at Ridgecrest, the Presbyterian assembly at Montreat, the Y. M. C. A. assembly at Blue Ridge, the Methodist assembly at Lake Junaluska, the assembly of the Associate Reformed Presbyterian Church at Bon Clarken near Hendersonville, and the Episcopal assembly at Lake Kanuga. Also, there are the Ben Lippen Bible Conference, and the Lutheridge Assembly at Arden.

Climate and Health

An unsurpassed climate, which combines light, cool, exhilarating summers and mild winters, a large percentage of sunny days, mountain-protection from severe storms and a dry atmosphere, has long been a principal attraction of Asheville and the western portion of North Carolina. The health-giving qualities of this climate have been a factor in luring here numerous health-seekers in search of surcease from many different afflictions. Many well-equipped sanatoria for the treatment of pulmonary and nervous afflictions are located in and near Asheville. Most notable among these are the U. S. Veterans Hospital at Oteen, just east of the city limits; the Veterans Hospital Annex, located near Swannanoa, and the North Carolina State Tuberculosis Hospital, near Black Mountain.

Industries

In addition to the large volume of tourist trade, Asheville is a center for diversified industries. Located near here are the great rayon and nylon plants, at Enka; the huge pulp and paper plant, at Canton; bleacheries, blanket factory, tannery, and numerous other plants manufacturing mica products, tools, hosiery, dimension lumber, furniture, food products, barrel staves, rayon garments, electronics, precision parts of machinery, heavy machinery equipment, parachutes, rugs, and other articles.

Near Brevard is located a cigarette paper mill, where fine cigarette papers are made from Flax; cellophane plant; tannery and other small industries.

The native industries which produce homespun woolens, rugs, native pottery, native ironwork, and numerous other woven and manufactured articles, are noted throughout the country.

The Asheville Industrial Council is located on the first floor of the City Hall building.

Mineral Resources

A variety of valuable mineral deposits are present in the Asheville area—mica, vermiculite, feldspar, talc, kaolin, quartz, granite, marble, copper and iron of proven quantity exist in this region. Asheville is a mineral resources center, having a mineral laboratory operated by the N. C. State College of Agriculture and Engineering of the University of N. C., in cooperation with the T. V. A. and the U. S. Bureau of Mines. More varieties of precious and semi-precious gems are found in this region than in any other area the same size in the United States.

Agriculture

Asheville is a large dairy and livestock center, over 500 dairies sell to Asheville milk plants. Three livestock auction markets with weekly sales. Large local production of broilers and hatching eggs. Ten tobacco warehouses in Asheville with over five million dollars in tobacco sales annually.

The Asheville Agricultural Development Council is located on the fourth floor of the City Hall building.

Shopping Center

Due to its large trade area and the many hundreds of thousands of visitors touring western North Carolina at all seasons of the year, the city has become one of the finest high-class shopping centers in the south.

Water Supply

Asheville's water supply is the purest to be found. The water, coming from the summits of the high peaks, is noted for its soft quality and its lack of impurities. The city water system is one of the few gravity systems in existence, and Buncombe County is one of the few counties in the U. S. providing water by means of mains along most highways in the county.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Typical Questions

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?

What is his middle initial?

Is he married? What is his wife's name?

Where does he live?

Does he own his home or rent?

Has he a telephone?

Who are his neighbors?

What does he do for a living?

Where does he work?

Is he the "head of the house" or a resident?

Does he own a business? Is he a member or officer?

Who else is in the same business or profession?

Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?

What are the latest population figures?

What is the latest statistical and general civic information?

What are the leading industries and activities of the city?

What are the names and locations of the schools?

What are the churches and where located?

Who are the pastors of the churches?

What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?

Who lives at a given address?

Is there a telephone at the address or nearby?

What is the character of the neighborhood?

Is it a "home-owners" section?

What is the nearest street corner?

What is the nearest store, church, school, garage, shopping center, parking lot, etc.?

Where are the public and office buildings?

If it is a business location, what business?

If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?

What is the correct name and address?

Is it a Proprietorship, Partnership or Corporation?

Who are the partners, owners, or officers?

Who else in same or similar lines?

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

DO YOUR EMPLOYERS FURNISH YOU WITH THE LATEST EDITION OF THE CITY DIRECTORY?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

HUNDREDS OF USES AND APPLICATIONS

BUYING

Learning new sources of supply.
Keeping up with known sources of supply.
Checking on the record of firms from which you buy as to dependability, stability, etc.

SELLING *(Including market analysis and sales promotion)*

Locating new markets.
Maintaining up-to-date mailing lists.
Analyzing the buying power of a community or street.
Routing salesmen to avoid lost motion in reaching prospects.
Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.
Identifying names and titles of officials, for use of salesmen.

CREDIT REFERENCE *(and Collections)*

Running down delinquent debtors.
Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether owner or renter, etc.
Identifying persons of same or similar names.
Investigating cases in welfare, charitable, social service and legal work.

DELIVERY *Communication, Mailing, Etc.*

Routing deliveries.
Reducing dead letters and insuring more complete delivery of mail.
Effecting delivery of messages and parcels erroneously or defectively addressed.
Correcting names and titles.

LAW ENFORCEMENT *Criminal Detection and Apprehension*

Tripping bad-check passers.
Deciphering illegible signatures.
Guarding against habitual bill dodgers.
Tracing heirs and witnesses, settling estates, and establishing facts as of a certain date.

A STATEMENT
OF
ADVERTISING PRINCIPLES

1. **GOOD ADVERTISING**—aims to inform the consumer and help him to buy more intelligently.

2. **GOOD ADVERTISING**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **GOOD ADVERTISING**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **GOOD ADVERTISING**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages
